UIStackView

```
class UIStackView : UIView {
  ...

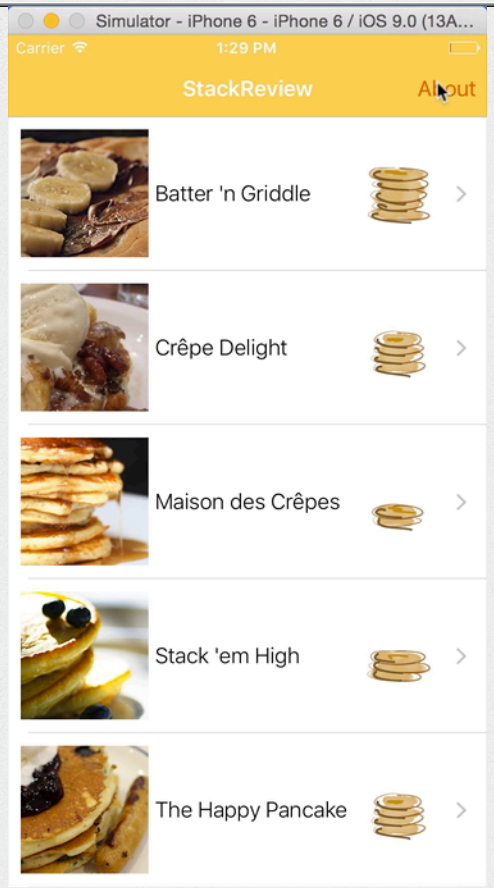
  var axis: UILayoutConstraintAxis
  var distribution: UIStackViewDistribution
  var alignment: UIStackViewAlignment
  var spacing: CGFloat
  var baselineRelativeArrangement: Bool
  var layoutMarginsRelativeArrangement: Bool
}
```

Managing Subviews

```
class UIStackView : UIView {
  init(arrangedSubviews views: [UIView])
  var arrangedSubviews: [UIView] { get }
  func addArrangedSubview(view: UIView)
  func removeArrangedSubview(view: UIView)
  func insertArrangedSubview(view: UIView, atIndex stackIndex: Int)
  ...
}
```

Managing Subviews

	addSubview	addArrangedSubview
Add to View Hierarchy	✔	✔
Add to Arranged Views	✘	✔

	removeFromSuperview	removeArrangedSubview
Remove from View Hierarchy	✔	✘
Remove from Arranged Views	✔	✔


It's Challenge Time!
