

Table Views in iOS

TableView Controllers

Table View Controllers

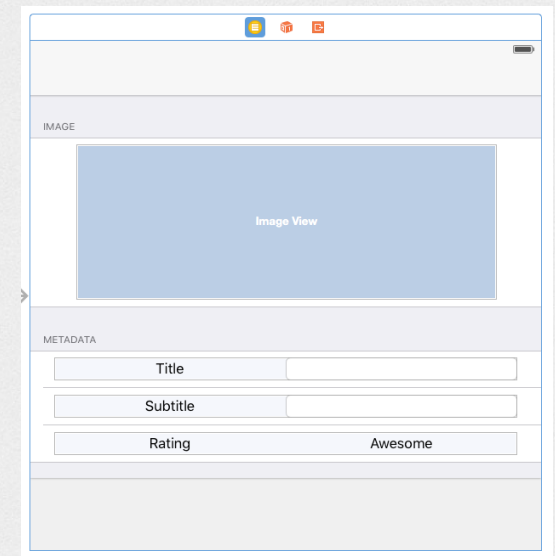

- ⚙ Provides lots of convenience:
 - ⚙ Table view automatically created
 - ⚙ Data source/delegate automatically set
 - ⚙ On each **viewWillAppear()**
 - ⚙ Clears selection
 - ⚙ Flashes scroll indicators
 - ⚙ Implements **setEditing(_:animated:)** to toggle edit mode of table

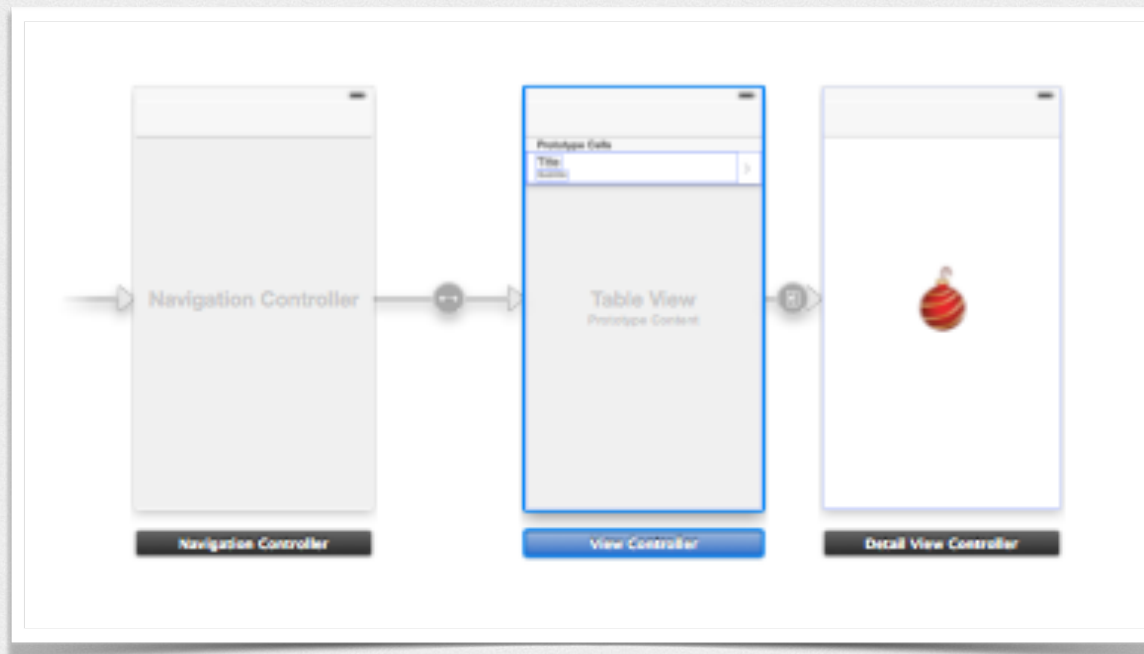

Table View Controller - A controller that manages a table view.

Static Cells

- ⚙ Fixed number of cells
- ⚙ Good for different layouts in each cell
- ⚙ Often used in editing views

Demo: Table View Controllers

Challenge Time!
